

864 Fiber in 6RU

Splice Ready Patch Panel

Connectivity Solutions Direct (CSD) offers a 864 duplex LC splice patch housing in a 6RU footprint. The module features 19-in rack mount spacing, featuring a slide out shelf for each 2RU section with 288 fibers making access to splice trays and pigtailed easy. Ribbon fanouts are housed in cassettes with built in cable management eliminating the need to manage 900um fibers. Cassettes are removable for maintenance and service, and aid in fiber identification.

Features

- Configurable and customizable
- Connector types, cable type, and pigtail length are customizable
- Sliding shelves for easy access
- Ribbon fiber for fast and easy splicing

Applications

- Hyperscale
- Data centers
- Telecom
- Central Office

Optical Specifications

IL Singlemode	< -.35dB UPC
RL Singlemode	< -55 dB UPC, < -65 dB APC
