Network Interface Device (NID) Single Port SC/APC with Splice Tray

Connectivity Solutions Direct - CSD's Single Port Network Interface Device is a low-profile enclosure designed with utility in mind. A single SC simplex or LC duplex adapter makes it ideal for SFU applications. 16 fiber splice tray and intuitive fiber routing makes this unit fast and easy to deploy. This unit also includes the SC/APC adapter and a clear splice cover for protecting connectors.

Order Information	
Part Number	FDMK-1FTX
Width	4.0" (101.6 mm)
Height	6.6" (167.6 mm)
Depth	1.2" (30.5 mm)
Weight	0.5 lbs (.23 kg)

Features

- High Impact, UV resistant plastic
- Splice tray with intuitive layout and tie downs
- IP 65 rating
- Security lock
- Wall and pole mountable

Applications

- FTTx Passive Optical Networks
- Local Area Networks
- Data Communications
